Communication Beyond Carolina

Description: Students build capacities for producing and listening to oral communication across a range of contexts. With multiple audiences, they **learn to listen** to and persuasively convey knowledge, ideas, and information.

Questions for Students

1. How can I engage with audiences through oral communication?
2. How do I best convey knowledge, ideas, and information effectively to different audiences in situations?
3. **How can I best understand the views and ideas of others**, both individually and collectively?
4. What are the best ways of strategizing and delivering oral communication for achieving my intended outcomes?
5. How can media or digital compositions extend my ability to communicate?

GEOG415 - Making Your Research Matter:

Effective Design and Communication to Help Make an Impact on the World

Date	Topic
19-Jan	Introducing GEOG 415
21-Jan	The art of listening
26-Jan	Connecting & constructive feedback
28-Jan	Feedback practice
2-Feb	The narrative, storytelling & the human brain
4-Feb	Learn to love self-evaluation
9-Feb	Turning an AAA or DHY into an ABT
11-Feb	Focus on key points
16-Feb	Wellness Day: No class
18-Feb	Clarify & frame your message
23-Feb	Project planning discussions
25-Feb	A picture is worth a thousand words
2-Mar	Design theories & storyboarding
4-Mar	Delivering talks & managing anxiety
9-Mar	Presentation Zen
11-Mar	Wellness Day: No class
16-Mar	Better/Butter posters
18-Mar	Creating effective graphics
23-Mar	Poster session
25-Mar	Writing clearly & IMRaD
30-Mar	Abstracts & titles

Date	Topic
1-Apr	Research ethics
6-Apr	Research ethics
8-Apr	Goodbye jargon, hello analogies
13-Apr	Journalists & media strategies
15-Apr	Handling interviews
20-Apr	Stakeholders & policy makers
22-Apr	Outreach in the post-factual world
27-Apr	Student choice topics
29-Apr	Student choice topics
4-May	Full circle: back to listening
13-May	12p-3pm: Presentation of final projects

Student Choice Topics

- Working with the emotional aspects of research
- Communicating skills & qualifications in the job market
- Recognizing ableism in public speaking advice & spaces
- Making connections to outside groups

Top five qualities employers are looking for, according to a National Association of College and Employers survey:

Ability to:

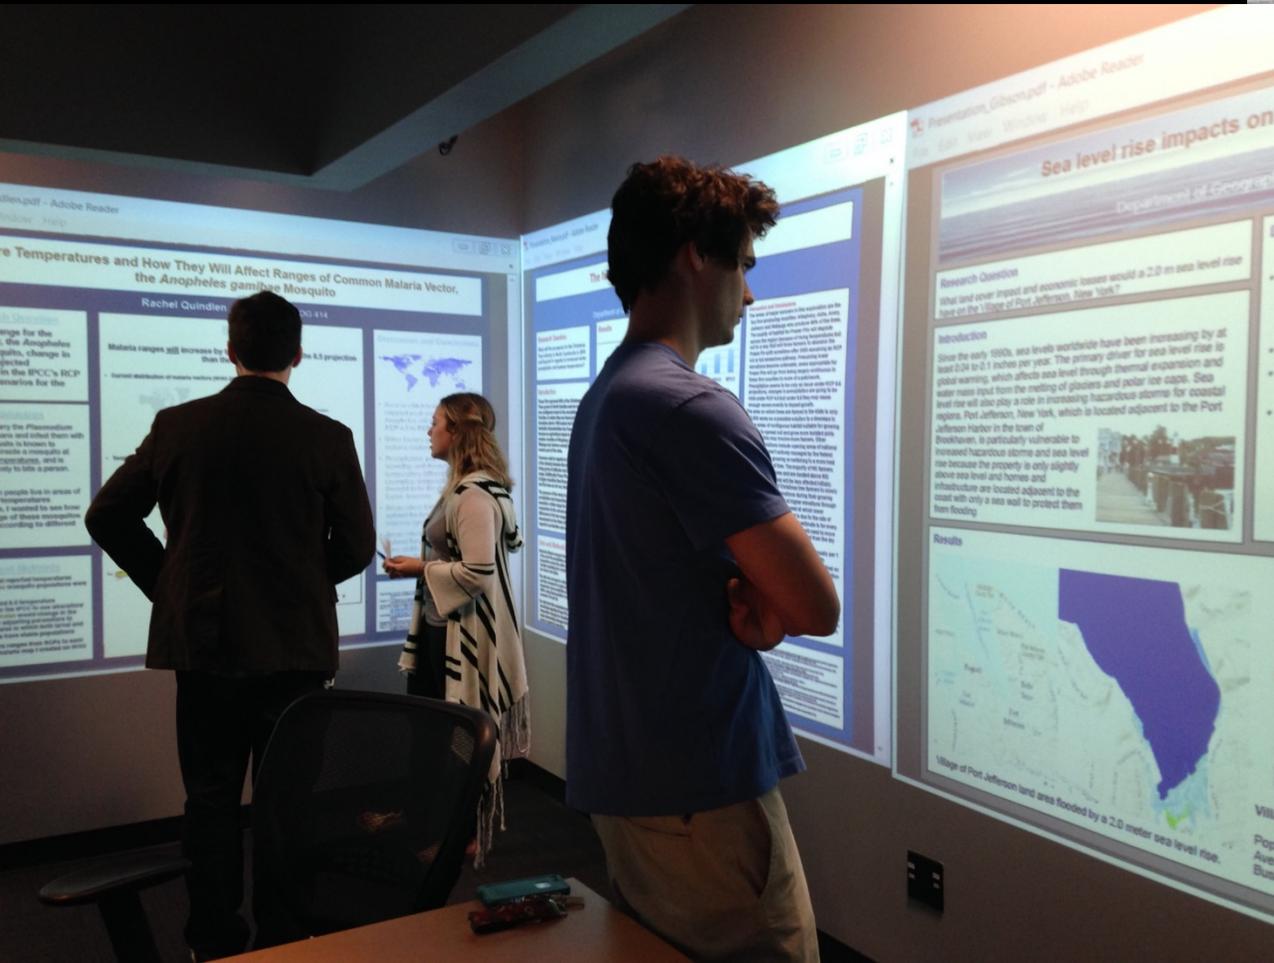

1. Work with a team
2. Communicate verbally
3. Make decisions and solve problems
4. Obtain and process information
5. Plan, organize and prioritize work

Applied Climatology:
The Impacts of Climate &
Weather on Environmental
and Social Systems

GEOG416: Applied Climatology

Communication goals: Effectively communicate information for different potential audiences in three of the most commonly used formats (oral presentation, paper, and poster).

- Two team oral presentations
- Two individual oral presentations
- Three team poster presentations (2 digital, 1 paper)
- One individual written paper
